THE WOLF PACK: A FOURTH GRADE THEMATIC UNIT
Steve Hamilton, Amanda Heyerly, Nichole Stanley, Jaila Taylor
(Kathryn A. Ahern, Assistant Professor of Education; Patricia A. Sellers, Assistant Professor of Education)
School of Education

The unit covers all areas of the curriculum including mathematics, science, social studies, language arts, music, art, and physical education. By utilizing the photojournal technology project and the wide variety of lesson plans offered in this unit, students will have the opportunity to discover more about wolves. This unit focuses on topics such as; graphing, wolf myths and facts, wolf-characteristics, pack life of the wolf, communication among the wolves, and the needs of the wolves. Throughout this unit, students will be given the opportunity to read and research information dealing with wolves and then apply this data to specific activities. These prepared activities touch on all the multiple intelligences, giving each individual student the certainty to learn. In addition to the actual teaching unit and plans, this unit includes a student research and information booklet entitled, "The Wolf Pack". The content covers the characteristics, survival, and restoration of the gray wolf.
