Social Security Act: What's Going to Happen?  
Tyler Mendenhall  
Dr. Nodir Adilov  
Department of Economics  
Indiana University Purdue University Fort Wayne

Within my research paper, I will be evaluating many aspects of Social Security Act of the United States. Those aspects include the initial reason it was created, a history of performance, effects on the United States economy, and the future outlook of the Social Security Act. In addition, I will compare and contrast our Social Security system with other countries in the world's similar programs, if any, and the effects of each of those on each country's economy. For my conclusion, I will combine facets of my previous research to create an overview of Social Security, and make an educated suggestion on parts of Social Security that could be fixed or altered within the United States Social Security system.
